

Speaker's Series

Second Chance Tucson

Successful Strategies for Community Reintegration

Since the *War on Drugs* began 50 years ago, incarceration rates have climbed dramatically, adversely impacting individuals, families and communities.

All of the speakers in the **SCT Speakers Bureau** have lived the experience of incarceration!

SCT can arrange for 15-60 minute presentations with one or two speakers, depending on your needs.

Get a better understanding of the incarceration crisis **human component** by arranging an **SCT Speakers Bureau** presentation for your group.

To arrange a presentation contact Charles Pyle at crpyle@secondchancetucson.org

Mission Statement

SCT's mission is to break the cycle of recidivism and intergenerational harm by facilitating positive connections for justice-system-involved people with the community through employment, housing, volunteerism and referrals, while educating the community to reduce unfairness and stigma.

SCT's vision is that people experiencing jail, prison or criminal justice supervision are given a fair chance to succeed, a real "**second chance**", allowing families, neighborhoods, and communities to prosper. We believe community engagement is a vital two-way street between a wide cross-section of community members and justice-system involved people.
